## What is **Buidy.ai**?

The fastest way to turn ideas into real, working software — without writing code, managing servers, or hiring developers.

### Your Personal AI Developer

Buidy is like having a full-stack developer on your team. Just describe what you want in plain English, and watch as it builds

### Everything Built-In

No juggling multiple tools. Buidy includes databases, user authentication, file storage, email sending, and AI integrations — all pre-

### Deploy Instantly

Your app is live the moment it's built. Share it with the world, gather feedback, and iterate — all without touching a single line of code
