online-expos.com
The ultimate online tradeshow system

Expo e-commerce
Sell products and/or services from within your stand with the built-in eCommerce feature...

Multi-media presentations
Choose the template that matches your presentation needs and start uploading your files...

Expo Banner Ads
Allow affiliates and related businesses to advertise on your expo with banner ads...

This is quite possibly the most powerful online tradeshow system available, remarkably simple to manage, and completely customisable. Features range from e-commerce and live chat, to easily tailored multi-media presentations. No special applications are required to view content and every expo is optimised automatically to allow users with lower bandwidth to still be able to take advantage of special expo features.

Administration is also simple and allows every stand to be individually managed. Most features, such as blogs, chat, e-commerce are automatically included in every participant's stand, and these items can be configured at the flick of a switch to operate as needed. Every expo is completely scalable - so you can have as many participants as you require... and for design, this too is inexpensive and easily implemented. Just send us an email and we can get you started.
